# PReS NEVER STOPS EVOLVING, UPGRADE SAFELY WITH +PReS Compare

BENEFITS

❯ **LOWERS THE RISK**
of migrating to a newer version

❯ **ALLOWS YOU TO CHECK CHANGES**
in updated scripts

❯ **ENSURES THAT OUTPUT**
from legacy scripts is correct
in the new version

❯ **HELPS TO IMPROVE PERFORMANCE**
leading to better results

IN MANY BUSINESS ENVIRONMENTS, UPGRADES OR CHANGES TO EXISTING SYSTEMS OFTEN COME WITH UNCERTAINTY AND RISK. BUT NOW THIS SHOULD NOT PUT A STOP TO ANY PLANS FOR IMPROVEMENT.

WITH +PReS Compare, WHAT YOU SEE IS WHAT YOU GET.

It allows you to easily compare output from different versions of PReS, PReS Designer or PReS scripts and identify any changes.

AND YOU DON'T HAVE TO WORRY ABOUT THE COST, +PReS Compare IS COMPLETELY FREE!

HOW IT WORKS

PReS Script\ PReS Designer Project

Current Version of PReS\ PReS Designer → **Output File***

New version of PReS\ PReS Designer → **Output File***

*AFPDS, PCL, IJPDS, PostScript®, PDF, EPS, PNG, TIF and JPG.

+PReS Compare

Analyse differences to determine changes required to PReS Script \PReS Designer Project for production in new version.

Differences Identified

- **Compares output from different versions of PReS, PReS scripts and PReS Designer projects**
- **Compares output across different PDL's**
- **Supports AFPDS, PCL, IJPDS, PostScript®, PDF, EPS, PNG, TIF and JPG**
- **Provides a simple drag and drop interface**
- **Specify reference and candidate files for comparison**
- **Document index tree indicates which pages differ using colour codes**

- **Highlights differences on document pages with red circles**
- **Specifies the number of pages to rip**
- **Zoom in and out of document**
- **Save and load file comparisons from previous sessions**
- **Dependent on a PReS license**
- **Installation supported with PReS 6.0 and above**
